kedarlimbalkar@gmail.com | +91-9284374129 | Pune, Maharashtra – 411001 | [LinkedIn](#) | [Github](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Machine Learning Engineer and Data Scientist with hands-on expertise in **deep learning, NLP, LLMs**, and end-to-end **ML pipelines**. Proven ability to architect production-grade AI systems — from **multi-agent LangGraph RAG workflows to real-time CNN inference pipelines**. Pursuing MS in Computer Science (ML & AI Engineering); certified in Full Stack Data Science and AI with Docker-based MLOps deployment experience.

TECHNICAL SKILLS

Languages & Libraries: Python (Pandas, NumPy, Scikit-learn, XGBoost, Keras, PySpark), SQL

ML & AI Frameworks: TensorFlow, LangChain, LangGraph, FAISS, Llama 3.3, Hugging Face, OpenCV, Streamlit

Generative AI & LLMs: Prompt Engineering, Model Fine-Tuning, Transformer Models, RAG, Vector Embeddings

Databases & Cloud DW: MySQL, BigQuery, Snowflake

Data Engineering: Apache Airflow, ETL Pipelines, Data Modeling, REST API

MLOps & DevOps: Docker, Git, CI/CD, MLOps Deployment

Data Science: NLP, Computer Vision, Feature Engineering, Statistical Analysis, Hypothesis Testing, A/B Testing

PROJECTS

Conversational AI for Retail | [Github](#) | [Drive](#)

Feb 2026

Tech: Python, LangGraph, LangChain, Llama 3.3, FAISS, RAG

- **Preprocessed 44,884 retail** records using a 3,000/500 token chunking strategy to build a high-performance **FAISS vector** knowledge base, ensuring 100% semantic integrity for rapid retrieval.
- Architected a multi-agent LangGraph workflow achieving **92% domain accuracy** and sub-1.2s latency, optimizing customer service automation at scale.

Emotion Recognition System | [Github](#) | [Drive](#)

Mar 2026

Tech: Python, Keras, TensorFlow, CNN, OpenCV, Streamlit

- Engineered a CNN architecture in Keras to classify **7 emotional states from 35,000+ facial images**, achieving 88% accuracy through strategic Dropout and Batch Normalization layers.
- Deployed a real-time inference pipeline using OpenCV and Streamlit, delivering 30+ FPS across diverse **lighting environments**.

WORK EXPERIENCE

Intucate | Business Analyst Intern

Jan 2026 – Apr 2026

- Analyzed content asset performance metrics to improve educational engagement outcomes for target demographics.
- Implemented structured communication protocols aligning cross-functional team goals with the product technical roadmap.

EDUCATION

MS in Computer Science: Machine Learning and AI Engineering — Woolf University

2025–2027

B.Tech in Computer Engineering — Government College of Engineering, Jalgaon

2021–2025

ACHIEVEMENTS & EXTRACURRICULARS

- District Winner — National Level Computing Intelligence Olympiad (CIO); demonstrated exceptional logical reasoning and data interpretation skills in a competitive national field.
- Core Member, Technical Council 2025 — co-ordinated national-level technical events, managing cross-team logistics and execution.
- Event Anchor — hosted two major national-level cultural festivals: Carvaan 2024 and Kalasangam 2025, showcasing strong communication and public-speaking skill.

CERTIFICATIONS

- Full Stack Data Science and AI | AlmaBetter | [Link](#)

Developed 6 production-ready ML/DL solutions across 8+ datasets; skilled in Python, SQL, Git, and MLOps deployment via Docker.
