EDUCATION

Bachelor of Technology in Computer Engineering

Government College of Engineering Jalgaon.

2021 - 2025

Higher Secondary - Class 12

Rareshwar Secondary & Higher Secondary School Dharmapuri, Parbhani

2021

SUMMARY

Results-driven **Computer Engineering graduate** seeking an entry-level **IT role**. Applying strong **analytical, coding, A/B Testing**, and **Data Science** skills to solve complex problems and drive innovative business success.

TECHNICAL SKILLS

- **Programming & Scripting:** Python (Pandas, NumPy, Scikit-learn, XGBoost, PySpark basics), Java (Basics).
- **Databases & Querying:** SQL (MySQL), Oracle, Cloud DW (BigQuery, Snowflake Exposure), Apache Airflow
- **Data Visualization & BI:** Power BI, Tableau, Advanced Excel.
- **Data Concepts & Testing:** Statistical Analysis, Hypothesis Testing (A/B Testing), ETL Concepts, Data Modeling.

PROJECTS

1. **Conversational AI for Retail** | [Link](#) | [Drive](#) Feb 2026
 - **Preprocessed** 44,884 retail records using a 3,000/500 chunking strategy to build a high-**performance FAISS knowledge base**, ensuring 100% semantic integrity for rapid retrieval.
 - **Architected** a multi-agent **LangGraph workflow** using **Llama 3.3**, achieving **92%** domain accuracy and sub-1.2 second latency to optimize customer service automation and response efficiency.
2. **Emotion Recognition System** | [Link](#) | [Drive](#) Mar 2026
 - **Engineered** a CNN architecture using Keras to classify 7 emotional states from 35,000+ images, achieving 88% accuracy through strategic **Dropout and Normalization layers**.
 - **Architected** a real-time inference pipeline **using OpenCV and Streamlit**, delivering 30+ FPS while maintaining high-fidelity classification across diverse and complex lighting environments.

EXPERIENCE

1. **Intucate | Business Analyst Intern** Jan 2026 – April 2026
 - **Core Asset Management:** Spearheaded the end-to-end lifecycle of the organization's **primary content assets**, directly improving the **educational value** and engagement metrics for the target demographic.
 - **Cross-Functional Synergy:** Analyzed **ground-level startup dynamics** to implement efficient communication protocols that aligned departmental goals with the overarching technical roadmap of the mobile application.

CERTIFICATES

1. **Full Stack Data Science and AI | AlmaBetter** | [LINK](#) Aug 2025
 - Skilled in **Python, SQL, and Git**. Developed **6 production-ready ML/DL solutions** from **8+ datasets**, focusing on **model optimization and MLOps deployment** via **Docker**.

EXTRA-CURRICULAR ACTIVITIES

- District Winner in the National Level Computing Intelligence Olympiad (CIO), demonstrating exceptional **logical reasoning** and **data interpretation**.
- Core member of **Technical Council 2025**; co-ordinated **national-level technical events**.
- Anchored two major **national-level cultural festivals** **Carvaan 2024, Kalasangam 2025**.
